

**BCHE4910 Group Research in Biochemistry**  
Proposal Template

1. Project Title.

English:
Chinese:

2. Members in the Team.

Full Name of Members	Student ID

3. Abstract of the project (Words limit: 200).

--

4. Objectives of the project (please itemize)

5. Impact of the project.

i) What benefits do you expect as a result of the project?

ii) What could be the long-term impact as a result of the project?

6. Project design based on the criteria of a) innovation and design, b) social enterprisingness, and c) global citizenship. Is there specific design of the project to address the criteria?

7. Nature of the research: Please indicate if a) questionnaire survey, b) statistical analysis, c) computer modeling, d) interview, e) literature research, f) experiments in the laboratory, or g) other methods required according to the design of the project.

8. Workflow of the project: Please describe the time line of the project during the summer and Term 1.

9. Expected outcomes and findings related to a) innovation and design, b) social enterprisingness, and c) global citizenship.

i) Can the project outcomes and findings lead to innovation?

ii) Can the project outcomes and findings benefit the society?

iii) Can the project outcomes and findings be applied from the global perspectives?

10. Budget estimation: List and itemize the estimated cost of the project.

11. Dates and Signatures
