

In celebration of Biochemistry 50th Anniversary

POPULAR SCIENCE TALK

Biochemists as Research Scientists and Entrepreneurs in the 21st Century Diagnostics & Drug Discovery

Dr. Aldrin Yim (MPhil in Biochemistry, 2015)

Dr. Aldrin Yim is the founding CEO of Codex Genetics. Dr. Yim received his Ph.D. in Computational and Systems Biology at The Washington University. His research has uncovered the glial and immuno diversity in peripheral nerves, and has illustrated the cellular dynamics in peripheral neuropathies including ALS through advanced single-nuclei genomics technology. Over the years, Aldrin has played an active role in accelerating the diagnosis of rare neurological disorders in HK.

Dr. Hao Qin (PhD in Biochemistry, 2014)

Dr. Hao Qin is the Associate Director of the Molecular Diagnostics (Precision Medicine) team at AstraZeneca in Shanghai. He has been leading the team to develop new diagnostic assays and drugs and to ensure high quality diagnostic data delivery for clinical trials in China. Dr. Qin's team has also been actively engaged in establishing collaboration with major Next Generation Sequencing (NGS) companies in China for companion diagnostics development.

11 DEC 2021

3:00 - 5:30pm

 Lecture Theatre 2, Yasumoto International Academic Park,
The Chinese University of Hong Kong

Enquiries: Dr. Patrick Ngai Tel: 3943 4359 Email: hkngai@cuhk.edu.hk

Online registration at: <https://cloud.itsc.cuhk.edu.hk/webform/view.php?id=13640721>
or through QR code by 10 December 2021 (Limited seats).
